

Harness the Power of Two Decades' Worth of Knowledge, Experience, and Passion

Quality Products, Unparalleled Service, Affordable Prices

We live out our mission each day by providing business owners across Texas with the tools they need to grow their businesses. We established a rental program that gives you advanced POS technology for a low monthly price —our rental bundles start at just \$49.

Make no mistake: Choosing our systems for a low monthly fee doesn't mean you're settling for lower quality for fewer features. You'll actually get more. We design our POS software with features that large enterprises and chains use, like interfacing with distributor databases, centralized reporting, and automated purchase orders.

You'll also have features that you won't find in many other POS systems designed for small businesses. Our POS systems automatically track EBT purchases so that cashiers don't have to manually divide orders, feature inventory management functionality that flags price changes so you don't sell below cost, and includes built-in credit surcharging options.

We also know each of our customers has unique needs, so we tailor your POS system to your specific needs and personalize the service we provide. We'll help you analyze the data you collect to produce valuable business insights and reach new levels you never thought were possible.

GBT's help desk and technicians, who speak both English and Spanish, are available around the clock, whenever you need a hand to troubleshoot a problem or request service.

Choosing GBT as your POS system provider is the first step toward streamlined workflows, greater profitability, and a growing business. After two decades, your success is still our mission.

Take Your Vape/Smoke Shop to the Next Level with GBT POS!

GBT
GLOBAL BUSINESS TECHNOLOGIES

Are you looking to streamline your operations and boost your Vape/Smoke Shop efficiency? You're in the right place! Discover how the GBT Point of Sale (POS) system can transform your Vape/Smoke Shop.

Take Your Vape/Smoke Shop to New Heights with GBT POS

Dual Pricing for Maximum Savings

Offer cash and card prices to save hundreds, if not thousands, in monthly processing fees. It's a game-changer for your bottom line.

Stay Connected with Our Mobile App

Effortlessly add new items, make changes, or check inventory from anywhere. Keep your stock up-to-date in real time, whether you're in the shop or on the move.

Multi-Store Syncing

Expand confidently with GBT POS's multi-store syncing feature. Apply the same prices and settings across all your locations, with options to customize for individual stores.

Gain Control Over Your Business Operations

Transparent Labeling

Print labels with both cash and credit prices, ensuring transparency for customers. Our system makes pricing easy to manage for your entire staff.

Advanced Inventory Management

Know exactly what's in stock at all times with multi-store syncing. Whether you manage one shop or many, GBT POS keeps your inventory in check.

20 Million Pre-Loaded UPCs

Adding new items is simple. Just scan the barcode, enter the price, and you're ready to go. No more tedious data entry!

Stay on Top of Your Business

- Sync with QuickBooks for seamless accounting
- Control employee access with user security controls
- Get text alerts for key activities: item sales, deletions, price changes, and low stock
